ABOUT THE TWD:S WIKI

About

This was created with the sole intention of having one place where all the guides, information and data about the game can be found. Including requirements of levelling up buildings, resources required for upgrades, flasks needed to get to T10 troops, and how much it costs to buy Ezekiel maxed stars.

This wiki is owned & hosted by S-MOD Origin as a fun *(and massive headache)* side project, and is lead by Tinka.
