## Relationships (Beta) – Effect Patterns

# Relationships (Beta) – Tips

- 
1. Now a player can have 4 different Relationships (**Love Couple** + **Blood Bound** + **Besties** + **Death Squad**), and multiple Relationships attributes are effective at the same time.
  2. When a player exit or get kicked out of a Relationship, his contribution points will be taken away, and the original combination will recalculate the Relationship level, refresh attributes and privilege unlocking status based on the remaining player contribution points.
  3. Players who form a Relationship still can attack each other.
  4. When a player decides to move to another region, he will leave from all Relationships by default.
