# Specialization - Attributes

## Specialization Skill Cards

### Global Attributes

These are attributes that always have effect, on any Formation. You can enhance them by upgrading Skill Cards.

### Exclusive Skills

- Each skill card has its own exclusive skill, which is generally only effective for the combat survivor equipped with the card.
- You can improve the skill by upgrading the card. The skill is improved once every 10 levels of the card.

\*The skill effects of some cards may be effective for survivors who are not equipped (for example: the skill effect of the card "Overpower" "Up to 2 of your own Sharpshooter Crews [random] are put in a Berserk state", can provide bonuses to other survivors within the same formation.)

## Specialization Badges

- Badge Attributes only have effect for the Crew of the Survivor that is equipped with the Skill Card.
