APPROACHING
NEGAN'S ARMY

NEGAN'S ARMY - INTRODUCTION

A new enemy is approaching, are you and your clan ready to take on Negan's Army?

As soon as your region's Level 2 Communities are open for battle, **Negan's Army** will start to appear around the map (Near a community or in other areas).

Negan's Army are a fierce enemy and you will have to **rally together** with your clan to defeat them. Once they are defeated, they will leave **valuable materials** behind which can be claimed once by each member of the Clan that defeated the Army (These materials will disappear after one hour).

As long as no Clan has taken The Sanctuary, Negan's troops will be called **Negan's Army**.
Once a Clan has defeated Negan and taken over The Sanctuary, the troops will be called **Negan's Wandering Forces.**

NEGAN'S ARMY

MATERIALS

NEGAN'S ARMY - LEVELS + REWARDS

Negan's Army is no joke, and therefore their starting **difficulty level is 18** and can go up all the way to **level 30.**
Everytime you encounter Negan's Army in the world map, they will appear in **two different difficulties simultaneously**. One lower difficulty, and one higher difficulty.
If the higher difficulty of Negan's Army is defeated a certain amount of times, then Negan's Army will become stronger and higher difficulties will appear.

For example:
If currently level 18/20 Negan's Armies are on the map, after you defeat a certain amount of level 20 Negan's Armies. Their difficulties will increase to 19/21, then to 20/22 and so on until reaching the **maximum of 28/30.**
Defeating these armies will not be easy, but amazing rewards are available for those strong enough to prevail! You will have a chance of earning **fragments of the Saviors** (Negan, Dwight and John) as well as other **valuable resources.**

Are you ready to take on this new challenge?
