TIPS AND TRICKS

Communicate!

[TWD] Bob: Sorry guys, I can't help in the Hospital
[TWD] Rick: (- -) Like we didn't know that

Discuss with your clan-mates to find the best time for everyone, choosing a time that is not suitable might cause you to have an incomplete team. Communication once inside the Restricted Zone is also vital, communicate regularly via in-game chat or if possible set-up a voice call to communicate in real time more efficiently.

Know your opponent!

opponent in this round:
[BOB] Best of the Best

You will be able to see who your opponent will be ahead of time. Perhaps you can create a new game in their region to get some useful information before the battle.

	Bob	Medic
	Kirstin	Defender
	Butcher	Butcher

Strategize!

Create a plan, create smaller teams within your Clan's participants and give them a special task to focus on within the battlefield.

Adapt!

Your primary plan will not always work, be sure to have a plan B or plan C and be ready to adapt in the midst of battle.

Research!

Learn about what each building can grant you and its purpose in the battle.
