SURVIVORS AT WAR - INTRODUCTION

Survivors at war is a special 15 vs 15 PvP event that takes place multiple times per day. You are able to sign up individually and will be assigned a team based on your power.

Your team will then enter a battlefield and will have to work together in order to achieve victory! For more details on specific battlefield rules please refer to the "Guide" section in the Survivors at war interface.

After each battle you will gain or loose "War Value" depending on your performance which will then be reflected in your overall ranking.

Important Note: If you sign up for Survivors at War but do not enter the battlefield you will labeled as a "Deserter" and will automatically loose "War Value".

Now Survivors, its time for some **tips and tricks** to help you gain an extra advantage on the battlefield:

1. Always scout before attacking! If the opponents that are garrisoned in the building are much stronger than you, attacking them will only give away valuable points.

2. If your weaker formations cannot defeat enemies that are garrisoned, use them to **gather or defeat walkers**. Every point matters!

3. Communicate! Survivors at War has a special chat that is available during the preparation period as well as during the battle. Make use of it to organize your team and work together to claim victory!
